**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Honorable Mayor and City Council
City of Lawrence, Massachusetts

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Lawrence, Massachusetts, as of and for the year ended June 30, 2010, (except for the Lawrence Contributory Retirement System which is as of and for the year ended December 31, 2009) which collectively comprise the City of Lawrence, Massachusetts' basic financial statements, and have issued our report thereon dated December 3, 2010. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the City of Lawrence, Massachusetts' internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City of Lawrence, Massachusetts' internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the City of Lawrence, Massachusetts' internal control over financial reporting.

Our consideration of the internal control over financial reporting was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies or material weaknesses and therefore, there can be no assurance that all deficiencies, significant deficiencies, or material weaknesses have been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control over financial reporting that we consider to be material weaknesses.

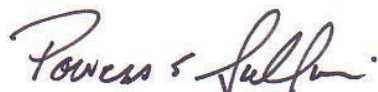

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. *A material weakness* is a deficiency, or combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiency described in the accompanying schedule of findings and questioned costs as 2010-1 and 2009-1 to be material weaknesses.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Lawrence, Massachusetts' financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non compliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain other matters that were reported to management of the City of Lawrence, Massachusetts in a separate letter dated December 3, 2010.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133

To the Honorable Mayor and City Council
City of Lawrence, Massachusetts

Compliance

We have audited the compliance of the City of Lawrence, Massachusetts, with the types of compliance requirements described in the U.S. Office of Management and Budget (OMB) Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the City of Lawrence, Massachusetts' major federal programs for the fiscal year ended June 30, 2010. The City of Lawrence, Massachusetts' major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs. Compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs is the responsibility of the City of Lawrence, Massachusetts' management. Our responsibility is to express an opinion on the City of Lawrence, Massachusetts' compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred.

An audit includes examining, on a test basis, evidence about the City of Lawrence, Massachusetts' compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City of Lawrence, Massachusetts' compliance with those requirements.

In our opinion, Lawrence, Massachusetts complied, in all material respects, with the requirements referred to above that could have a direct and material effect on each of its major federal programs for the fiscal year ended June 30, 2010.

Internal Control Over Compliance

The management of the City of Lawrence, Massachusetts is responsible for establishing and maintaining effective internal control over compliance with requirements of laws, regulations, contracts and grants applicable to federal programs. In planning and performing our audit, we considered the City of Lawrence's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City of Lawrence, Massachusetts' internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis.

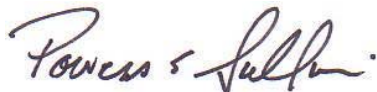

A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of the internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

Schedule of Expenditures of Federal Awards

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and aggregate remaining fund information of the City of Lawrence, Massachusetts, as of the year ended June 30, 2010, and have issued our report thereon dated December 3, 2010. Our audit was performed for the purpose of forming our opinions on the financial statements that collectively comprise the City of Lawrence, Massachusetts' basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

This report is intended solely for the information and use of management, City Council, others within the entity, and federal awarding agencies and pass-through entities and is not intended to be and should not be used by anyone other than these specified parties.

B. Findings-Financial Statements Audit**MATERIAL WEAKNESS**

2009-1 and 2010-1: Structural Budgetary Control

Condition and Criteria: Since approximately FY2003 the City has used non-recurring revenues, free cash, unobtainable revenue estimates, and debt service reserves to meet short-term budgetary goals at the expense of long-term financial sustainability. These budgetary actions have created and prolonged what is, in effect, a structural deficit. In other words, the City has been using budgetary techniques that, without modification, are inefficient to sustain the City's current and future operations.

The Massachusetts Department of Revenue, Division of Local Services (DOR), did an extensive review of the City's financial operation in February 2008. This report included a number of recommendations designed to eliminate the continuation of the City's budgetary and operating deficiencies. The majority of these recommendations have not been implemented.

As a result of the above, on December 31, 2009, the Governor of the Commonwealth of Massachusetts proposed legislation "An Act Providing For The Financial Stability of The City of Lawrence" (Act). Under this Act, there will be the establishment of a Fiscal Overseer appointed by the Secretary of Administration and Finance (Secretary) vested with comprehensive authority over all of the City's finances, including appropriations, borrowings, transfers of funds, and municipal spending authorizations. The Act establishes a City of Lawrence Fiscal Stability Fund, into which will be deposited up to \$35 million of borrowing, to maintain and operate the City for fiscal years beginning July 1, 2009, and July 1, 2010. Amounts may be disbursed from this fund under conditions approved by the Commissioner of Revenue.

The Act also provides that if the Fiscal Overseer concludes at any time after January 31, 2011 that the City is unable to achieve a balanced budget and fiscal stability, the Secretary may terminate the existence of the Fiscal Overseer and appoint a Finance Control Board (Board). Under the Act, the Board would not only have all of the powers of the Fiscal Overseer, but also the power to exercise any function or power of any municipal officer or employee, whether elected or otherwise, including certain powers to approve or disapprove contracts and have control over all personnel.

Effect: The overall effect of this deficiency deteriorates management's ability to competently manage the City's operations.

Cause: Lack of prudent financial management practices and budgetary controls.

Recommendation: The need to rely on the Commonwealth of Massachusetts (Commonwealth) resources, and possibly be subrogating to a control board, indicates that the City is not able to manage its operations competently at the current time.

There are a number of recommendations in this report and the report issued by the DOR that, if implemented, would enhance the internal controls over several areas of the City's operations and help mitigate, if not eliminate, the need for reliance on the Commonwealth. We recommend that management establish clear objectives and timelines that will resolve the current fiscal crisis.

C. Findings and Questioned Costs-Major Federal Award Program Audit

**UNITED STATES DEPARTMENT OF EDUCATION
MASSACHUSETTS DEPARTMENT OF ELEMENTARY AND SECONDARY EDUCATION**

Special Education - Grants to States
CFDA No. 84.027
Special Education – Preschool Grants
CFDA No. 84.173
ARRA - Special Education Grants to States, Recovery Act
CFDA No. 84.391

2010-1: *Condition and Criteria:* The City, through the School Department, was required to submit the final reports for each grant by October 31, 2009 but did not submit them until November 30, 2009 and November 17, 2009 respectively.

Cause: Improper controls to ensure compliance with grants reporting requirements

Effect: The City is not in compliance with grant regulations concerning the final report.

Questioned Costs: Not Applicable.

Auditors' Recommendations: We recommend the City review current policies and procedures to ensure that elements of the program grant agreements can be met in an efficient and timely manner.

Corrective Action: The City will implement procedures to assure that reports are filed in a timely manner.

D. Prior Year Audit Findings and Questioned Costs

None.
